The weather in 2013 was superb, albeit it was another drought season. Spring was moderately warm, allowing for good set, and the summer had few surprises. Fall weather during harvest was superb with long, warm days. A sprinkle in late September settled the dust. Yields were average. The resultant wine shows brightness and depth, with superb, savory aromatics.

Our 2013 Syrah comes from two sites in the Sonoma Coast appellation. The more northerly site with its Goldridge soils, brought depth and pepperiness, while the more southerly site added brightness and firm tannins. Both sites were hand-pruned, picked and field sorted.

Regional Composition: 100% Sonoma Coast

Varietal Composition: 97% Syrah, 3% Viognier

These Syrah bunches were hand-harvested and field-sorted on October 1 and 9 hand-sorted, destemmed & crushed (10% whole berry) and “cold soaked” for four days in open-top temperature-controlled fermenters. Warm fermentation temperature (85°) moved fermentation along and we kept the cap well immersed in its delicious must. On Day 9 the still-fermenting must was gently pressed into French oak barriques where it completed primary and later, secondary fermentations. The press fractions were about 8% because we want to avoid the bitter seed tannins and were kept separate and ultimately not used. French barrel coopers were top quality, but less than 20% new. Fifteen months barrel maturation was supplemented with three rackings which developed its wonderfully smooth but subtle mouth-feel. Our final assemblage of nineteen barrels was bottled in February 2015. Medium ruby-red and enjoyable now, it displays the varietal typicity of fine syrah with nuances of a fine spicerack.

pH: 3.63

Alcohol: 14%

Total Production: 19 barrels (about 475 cases)

Suggested Retail Price: \$25.00
