- THE FORAGER Pinot Noir illustrates that careful, experienced selection, blending and maturation of Pinot Noir lots grown in the Willamette Valley can deliver delicious flavors and interest.
- Excellent low yielding sites, classic low-impact Burgundian winemaking techniques and careful maturation in top new French oak capture the typicity of this area - and the purity of this noble red grape variety.

In 2014 the Willamette Valley had a near perfect growing season. This allowed grapes to be picked on flavor rather than chemistry – or because of pending inclement weather. 2014 allowed us to tinker along the seams, to refine the minutiae, rather than make broad strokes to glean the best from not-so-great lots and cull out the ones that didn't make the grade.

The complexity of our 2014 Pinot Noir comes from four clones grown in two locales in the Eola-Amity Hills sub-district of the Willamette Valley. The soils in these sites, situated west of Spring Valley Road, range from volcanic-based basalts to well drained silty-loams. The first site, representing 85% of the vintage, is planted to clones 115 and 667 on a hilly south-east facing slope near the Willamette River. The second site (15% of the vintage) offers clones clone 777 and Wadenswil. Both sites were hand-pruned and picked. These sites are low-yielding, meaning a harvest of 2 tons to the acre is something to celebrate.

*Regional Composition: 100% Willamette Valley AVA*

*Varietal Composition: 100% Pinot Noir   Clones: 115, 777, 667, Wadenswil*

*Maturation: 35% New French Barrels for eleven months*

Hand-harvested between September 23 and October 6, these compact Pinot Noir bunches were hand-sorted, partially destemmed (45% went whole cluster), and cold soaked for 2 days in five-ton open-top fermenters. Fermentation began naturally and was completed with cultured Burgundian yeast. Moderate fermentation temperatures (87°F) and 1 *pigeage* (manual punch-downs) per day helped build structure, color and texture. They were put to barrel while still fermenting. ML took place in barrel followed by eleven months maturation (no racking) which contributed nuanced spiciness and a velvety mouth-feel. New French oak was used for 35% of the blend. Limited SO<sub>2</sub> was used and the wine was left on its gross lees for the entire aging process but without any lees stirring. We call our wine THE FORAGER to illustrate how growing, gathering & judiciously blending small lots of delicious Pinot Noir can deliver tremendous flavor and interest.

*Retail Price: \$27*
